**Zylaya Corporation Joins Corporate Partnership Program
to Support IACLEA and Campus Public Safety**

WEST HARTFORD, CT (May 2, 2007) – Zylaya Corporation has become a Corporate Partner of the International Association of Campus Law Enforcement Administrators, Inc., (IACLEA), under a new program developed to honor IACLEA's 50 years of service and to support initiatives to enhance the ability of campus public safety to protect higher education institutions in the future.

Zylaya Corporation is a Titanium Sponsor and, as such, has pledged a significant donation to support IACLEA's 50th Anniversary and future initiatives. The goals of IACLEA's Corporate Partnership program are to highlight the growth and importance of campus public safety during IACLEA's first 50 years and to support initiatives to strengthen campus public safety and expand its impact on higher education and its service to stakeholders worldwide.

IACLEA will celebrate its 50th Anniversary with a series of events, beginning in Las Vegas in 2007 and culminating with its 50th Annual Conference and celebration in Hartford, CT, in 2008.

Zylaya's Emergency Notification System (ZENS) is a two-way managed emergency communications system designed specifically for campus environments. ZENS can broadcast or selectively send emergency notices to public places, to individuals, and to cell phones and pagers. ZENS personal devices with a one-button Panic alarm, notification display and location tracking capability enable safety and security personnel to respond and communicate more effectively in emergency situations. When a Panic alarm is received the dispatcher is provided with the name and location of the person requesting assistance. ZENS can also quickly locate security personnel for a rapid response to emergencies. Additionally ZENS location-aware features can accurately track visitors and critical assets. With a highly reliable wireless and battery-powered solution, ZENS provides modular functionality to meet security needs for today and tomorrow.

Zylaya Corporation continues to support IACLEA and the campus public safety profession. IACLEA asks all of its members to thank Zylaya for its support by keeping them in mind for any future assistance they can provide in developing mission critical solutions for campus public safety departments.

IACLEA is an association that advances campus public safety for its more than 1,100 educational institution members and more than 1,700 individual professional members by providing educational resources, advocacy, and professional development services. IACLEA is led by a Board of Directors and managed by a professional staff with headquarters in West Hartford, CT.
